

MYRON NEBOZUK, AAA, MRAIC,
PARTNER

QUALIFICATIONS

Myron's understanding that architects have a larger responsibility to build better cities was formed during his years as an architecture student at Carleton University. As a practicing architect, he seeks to thoroughly research and understand each commission's context, now and far into the future. Particularly, in the case of "raw" sites, he seeks to create anchor buildings that set the tone for subsequent development. Recent examples of this approach include the North Division Police Station, St. John Ambulance headquarters and ABSA offices.

EDUCATION

- 2010 Value Methodology, SAVE International
- 2010 LEED NC 2009 Overview, RAIC
- 2001 Sustainable Design Fundamentals for Buildings, RAIC
- 1989 B. Arch. with Distinction, Carleton University, Ottawa
